PHARMACY REIMAGINED®

**NEW PATIENT PACKET**

**Dear Patient:**

Welcome to Scripts Rx; we are pleased to have been selected as your specialty pharmacy provider. Enclosed is your patient welcome packet containing information on Scripts Rx, our operations and services, patient safety, and other important patient information. Please take a few minutes to read through this information and keep this packet in a safe place for future reference. As a specialty pharmacy patient, you will have access to Scripts Rx's experienced clinicians.

Here are few things you should know about Scripts Rx:

- Scripts Rx is a specialty pharmacy offering you 24/7/365 support.
- We treat you as an individual and work with your care providers to create a program tailored to your specific condition.
- Our dedicated team of patient care coordinators will ensure the delivery of your monthly refills. Because we want to be sure you understand and follow your prescription guidelines, you will be provided with educational materials on your medications.
- We will handle the details for shipping and delivering your specialty medications.

If you have any questions, please call us at (800)-266-4907 or visit us online at [www.scriptsrxpharmacy.com](http://www.scriptsrxpharmacy.com).

Sincerely,

A handwritten signature in blue ink, appearing to read "Matt C.", with a long horizontal flourish extending to the right.

Matt Cunningham  
CEO, Scripts Rx Pharmacy

## About Scripts Rx

### Mission and Vision Statement

Create a better experience for the entire healthcare system by creating a better pharmacy. We call it "Pharmacy Reimagined".

### Our Story

Scripts Rx is the product of a belief that the best pharmacy is one that is focused on the patient. To achieve this mission, we are modernizing the pharmacy experience and challenging traditional norms that have rendered pharmacies inefficient and impersonal. We are rethinking the way patients and doctors interact with their pharmacy and are motivated to become the healthcare epicenter for our local community.

### Contact Us

**Chicago Address:** 1815 S. Meyers Road, Suite 100, Oakbrook Terrace, IL 60181

**Houston Address:** 7515 S. Main St., Suite 180, Houston, TX 77030

**Phone:** 800-266-4907

**Fax:** 877-992-3831

**Email:** [info@scriptsrxpharmacy.com](mailto:info@scriptsrxpharmacy.com)

**Website:** [www.scriptsrxpharmacy.com](http://www.scriptsrxpharmacy.com) (chat services and patient self-service portal available)

At Scripts Rx, we want to make managing your health convenient for you, which is why we offer you the ability to contact the pharmacy via phone, text message, web chat, email, or via our self-service pharmacy portal.

Scripts Rx will always proactively contact you regarding any new prescription(s) received. Proactive outreach by text message will typically occur 30 minutes of receiving the prescription and outreach by phone will happen within 2 business hours for prescriptions received during operating hours. Text messages and phone calls will always come from the same phone number, and Scripts Rx general phone number is (800) 266-4907.

You can also contact the pharmacy directly by phone, text message, and chat where Patient Service Representatives are available and waiting to service your request and answer questions during our normal business hours in the order in which outreach is received. Typical wait times are under a few minutes by phone and chat and under a few hours via text message. Patients can also contact the pharmacy via its website [www.scriptsrxpharmacy.com](http://www.scriptsrxpharmacy.com) or via email at [info@scriptsrxpharmacy.com](mailto:info@scriptsrxpharmacy.com). Response times for website and email requests are within 4 hours for communication received during normal operating hours.

If you need to speak with a pharmacist, a team of pharmacists is available immediately upon request during our hours of operation across any communication means. More detail is provided in Pharmacist Response Time section.

The RxSymply patient portal enables patients to self-service their prescriptions and make refill requests. There is also a chat service within the portal that is staffed by Patient Service Representatives should additional assistance be required.

### Hours of Operation

Our pharmacy is open Monday through Friday, 8 am to 7pm (Houston 9 am to 7pm) and Saturday 10 am to 2pm (Central Time)

A licensed pharmacist is available: 24 hours a day, 7 days a week at (800) 266-4907 and Press 1 to be routed to the emergency pharmacist services. If a pharmacist is not immediately available leave a voicemail, which is checked hourly (except from 10am to 6am CST) and calls will be returned upon that timeline. For a medical emergency, dial 911.

## Holidays

Scripts Rx is closed on the following holidays:

- New Year's Day (January 1)
- Memorial Day (the last Monday in May)
- Independence Day (July 4)
- Labor Day (the first Monday in September)
- Thanksgiving (the fourth Thursday in November)
- Christmas (December 25)

## Scripts Rx Emergency Disaster Information

If there is a disaster in your area, please call (800) 266-4907 to instruct us where to deliver your medication. This will ensure that your therapy is not interrupted. Be sure to also let us know when you have returned to your residence.

## YOUR INFORMATION. YOUR RIGHTS. OUR RESPONSIBILITIES.

### Your Rights - When it comes to your health information, you have certain rights:

**Get an electronic or paper copy of your medical record and ask us to correct your medical record:** You can ask to get an electronic or paper copy of your medical record and other health information. We will provide a copy or a summary of your health information, usually within 30 days of your request. We may charge a reasonable, cost-based fee. You can ask us to correct health information that you think is incorrect or incomplete. We may say “no” to your request, but we’ll tell you why in writing within 60 days.

**Get a list of those with whom we’ve shared information and ask us to limit the information we share:** You can ask for a list (accounting) of the times we’ve shared your health information for six years prior to the date you ask, who we shared it with, and why. We will include all the disclosures except for those about treatment, payment, and health care operations, and certain other disclosures (such as any you asked us to make). We’ll provide one accounting a year for free but will charge a reasonable, cost-based fee if you ask for another one within 12 months. You may also ask us not to use or share certain health information for treatment, payment, or our operations. We are not required to agree to your request, and we may say “no” if it would affect your care. If you pay for a service or health care item out-of-pocket in full, you can ask us not to share that information for the purpose of payment or our operations with your health insurer. We will say “yes” unless a law requires us to share that information.

**Request confidential communications and communications in the language of your preference:** You can ask us to contact you in a specific way (for example, home or office phone) or to send mail to a different address. We will say “yes” to all reasonable requests. We will also offer you the opportunity to request your preferred language of communication, which includes the language in which medication information is provided or you’re the language a medication label is printed in.

**Get a copy of this privacy notice:** You can ask for a paper copy of this notice at any time, even if you have agreed to receive the notice electronically. We will provide you with a paper copy promptly.

**Choose someone to act on your behalf:** If you have given someone medical power of attorney or if someone is your legal guardian, that person can exercise your rights and make choices about your health information. We will make sure the person has this authority and can act for you before we take any action.

**File a complaint if you feel your rights are violated:** You can complain if you feel we have violated your rights by contacting us. You can file a complaint with the U.S. Department of Health and Human Services Office for Civil Rights by sending a letter to 200 Independence Avenue, S.W., Washington, D.C. 20201, calling 1-877-696-6775, or visiting [www.hhs.gov/ocr/privacy/hipaa/complaints/](http://www.hhs.gov/ocr/privacy/hipaa/complaints/). We will not retaliate against you for filing a complaint.

**Ask for a prescription reader:** Upon request, a prescription reader (or acceptable alternative) will be available for the life of the prescription to assist patients with appropriately complying to prescription label instructions.

**Your Choices** - For certain health information, you can tell us your choices about what we share. If you have a clear preference for how we share your information in the situations described below, talk to us. Tell us what you want us to do, and we will follow your instructions.

**In these cases, you have both the right and choice to tell us to:**

- o Share information with your family, close friends, or others involved in your care
- o Share information in a disaster relief situation
- o Include your information in a hospital directory

**Note:** If you are not able to tell us your preference, for example if you are unconscious, we may go ahead and share your information if we believe it is in your best interest. We may also share your information when needed to lessen a serious and imminent threat to health or safety.

**In these cases, we never share your information unless you give us written permission:** Marketing purposes, Sale of your information, Most sharing of psychotherapy notes. In the case of fundraising, we may contact you for fundraising efforts, but you can tell us not to contact you again.

**Our Uses and Disclosures:** We typically use or share your health information in the following ways:

**Treat you:** We can use your health information and share it with other professionals who are treating you. Example: A doctor treating you for an injury asks another doctor about your overall health condition.

**Run Our Organization:** We can use and share your health information to run our practice, improve your care, and contact you when necessary. Example: We use health information about you to manage your treatment and services.

**Bill for Your Services:** We can use and share your health information to bill and get payment from health plans or other entities. Example: We give information about you to your health insurance plan so it will pay for your services.

**How else can we use or share your health information?**

We are allowed or required to share your information in other ways - usually in ways that contribute to the public good, such as public health and research. We must meet many conditions in the law before we can share your information for these purposes. For more information see:  
[www.hhs.gov/ocr/privacy/hipaa/understanding/consumers/index.html](http://www.hhs.gov/ocr/privacy/hipaa/understanding/consumers/index.html).

**Help with public health and safety issues:** We can share health information about you for certain situations such as: preventing disease, helping with product recalls, reporting adverse reactions to medications, reporting suspected abuse, neglect, or domestic violence, preventing or reducing a serious threat to anyone's health or safety.

**Do research:** We can use or share your information for health research.

**Comply with the law:** We will share information about you if state or federal laws require it, including with the Department of Health and Human Services if it wants to see that we're complying with federal privacy law.

**Respond to organ and tissue donation requests:** We can share health information about you with organ procurement organizations.

**Work with a medical examiner or funeral director:** We can share health information with a coroner, medical examiner, or funeral director when an individual dies.

**Address workers' compensation, law enforcement, and other government requests:** We can use or share health information about you: for workers' compensation claims, for law enforcement purposes or with a law enforcement official, with health oversight agencies for activities authorized by law, for special government functions such as military, national security, and presidential protective services.

**Respond to lawsuits and legal actions:** We can share health information about you in response to a court or administrative order, or in response to a subpoena.

### Our Responsibilities:

- We are required by law to maintain the privacy and security of your protected health information.
- We will let you know promptly if a breach occurs that may have compromised the privacy or security of your information.
- We must follow the duties and privacy practices described in this notice and give you a copy of it.
- We will not use or share your information other than as described here unless you tell us we can in writing. If you tell us we can, you may change your mind at any time. Let us know in writing if you change your mind.

For more information see: [www.hhs.gov/ocr/privacy/hipaa/understanding/consumers/noticepp.html](http://www.hhs.gov/ocr/privacy/hipaa/understanding/consumers/noticepp.html).

### Changes to the Terms of this Notice

We can change the terms of this notice, and the changes will apply to all information we have about you. The new notice will be available upon request, in our office, and on our website.

### Other Instructions for Notice

- Effective Date of this Notice: 7/21/2021
- Patricia Lind - Compliance Officer - Email address: [plind@scriptsrxpharmacy.com](mailto:plind@scriptsrxpharmacy.com)

## Obtaining Medications and Services

### Delivery of Your Specialty Medications

We coordinate delivery of your specialty medications to your home, your prescriber's office or an approved alternate location. We will also include any necessary supplies, such as needles, syringes and alcohol swabs. If your medications require special handling or refrigeration, they will be packaged and shipped accordingly. If you cannot be there to accept the package, we can arrange for it to be left at your home or an approved alternate location.

### How to Fill a New Prescription

Scripts Rx will work with your prescriber when you need a new prescription drug. In many cases, your prescriber will fax Scripts Rx a new copy of your prescription. However, you may also call Scripts Rx and request that we contact your prescriber to obtain a new specialty prescription.

### Ordering Refills

A patient care coordinator will call you before your medication is scheduled to run out to check your progress and determine the shipment of your next refill. Please call 1-800-266-4907 during our normal office hours if you have any questions or need help. During the intake process, we will verify your benefit coverage. In the event that your health plan(s) notifies us that your order should be sent to another facility of Pharmacy Benefit Management organization, we will contact you directly to assist you in the transferring of the order.

### Medications Not Available at Scripts Rx

If you cannot obtain a medication at Scripts Rx, your patient care coordinator will work with you and another pharmacy to ensure you receive your drug.

### Transferring Medications

It is always the patient's decision where to fill a prescription. If for any reason you want your prescription transferred to another pharmacy, please contact your patient care coordinator and we will transfer your prescription on your behalf.

### Generic Medication Substitution

Whenever possible, Scripts Rx will make the patient aware of lower cost medications and generic medication that might be substituted for brand-name medications at a lower cost. This may occur for new prescriptions, refills, therapeutic changes and prescription transfers.

### Health Information for Common Conditions

Scripts Rx will attach manufacturer information to your prescription regarding your medication, treatment options, diagnosis and common treatment options.

### Prescription Reader

Upon request, a prescription reader (or acceptable alternative device or method that meets visually impaired patient needs) will be available to patients for the life of the prescription. This is intended to assist patients with appropriately complying to prescription label instructions.

### Pharmacist Assistance

Scripts Rx's pharmacists are specially trained on the medication you are taking, and they are here to answer your questions about your care plan. Please call a Scripts Rx pharmacist if you have any questions regarding your treatment.

In the case of an emergency, call 911. A licensed pharmacist is available 24 hours a day, 7 days a week, for any urgent needs relating to your medication. After normal business hours, please leave your contact information with our after-hours inbox, and your message will be responded to according to the response times provided below.

Please do not use the emergency pharmacist phone line for non-emergency phone calls. Any non-emergency phone calls will be addressed during the next business day.

### Pharmacist Response Time

Phone calls to the emergency pharmacist phone line will be addressed according to the following schedule:

- **Level 1:** Urgent medical need that requires immediate attention where not responding could impact the health and safety (e.g. an adverse reaction to medication)
  - **Response Time:** Immediate response upon pharmacist receiving message
- **Level 2:** Not responding would cause the patient to delay starting therapy (e.g. therapy or consultation question)
  - **Response Time:** If the pharmacy is open the following day, then a response should be expected within the first hour of the following morning. If not, the pharmacist will respond within 24 hours.
- **Level 3:** Not responding has no immediate impact on the health, health outcomes or therapy (e.g. requesting a refill, asking for delivery update, etc.)
  - **Response Time:** A response should be expected within the first hour of the next day the pharmacy is open.

Response to requests for a pharmacist during operation hours will be addressed according to the following schedule:

- **Level 1:** Urgent medical need that requires immediate attention where not responding could impact the health and safety (e.g. an adverse reaction to medication)
  - **Response Time:** As immediate as possible. A Patient Service Representative will remain on the phone, chat, or text message conversation until a pharmacist is available.
- **Level 2:** Not responding would cause the patient to delay starting therapy (e.g. therapy or consultation question)
  - **Response Time:** Patient able to reach a pharmacist in under 60 seconds. Phone call, text message, chat, or email will be warm transferred to a pharmacist

## Payment Policy

### Commitment to Cost-Effectiveness

Scripts Rx is committed to offering the most cost-effective price for prescribed medication. We will work with your prescriber and pharmacy benefits manager to provide prior authorization support and with patient assistance programs provided by manufacturers, charities, and foundations for copay support. However, you may still have to pay a portion of the cost, which is called a co-payment. Scripts Rx will bill the appropriate party for all claims. However, you may be responsible for paying a co-insurance and/or deductible amount. You will be responsible for paying your co-payment when you order your medication or refills. Scripts Rx will tell you the exact amount you need to pay to receive your medication.

### Commitment to Price Transparency

Scripts Rx is committed to supporting healthcare price transparency. This includes our patient care coordinators providing a clear discussion of your co-payment, insurance coverage, co-insurance, and deductible covered/remaining, including the application of any patient assistance programs. Upon request and where allowable, Scripts Rx will also provide the cash price of any medications you are prescribed.

### Commitment to Network Transparency

Scripts Rx will maintain transparency in detailing its network status with your pharmacy benefit manager or insurance plan. If based on your eligible health benefits, Scripts Rx is an out of network pharmacy, the cost charged for the medication will be provided during consultation or in writing to you via an emailed invoice. You may also request to have your prescription transferred to a pharmacy of your choice upon request. A patient care coordinator will work with you to maintain price transparency and cost effectiveness in consulting with you about transferring your prescription.

### Outstanding Balances

If for any reason you owe a balance, the balance will need to be paid prior to your next refill. We accept Visa, MasterCard, American Express and Discover credit cards, including HSA and FSA cards.

### Payment Plan

If you need help in arranging a payment plan for the money you owe, please call and speak with one of our customer service specialists at (800) 266-4907.

If you get a check from the insurance company, you should send it to Scripts Rx with a copy of the Explanation of Benefits (also known as the EOB) statement you received.

## Patient Information

### Patient Issues and Concerns

If you suspect an error has occurred or have any concerns about your medications, services received, delivery or other issues, please call our customer service representatives at (800) 266-4907. We would be glad to assist you.

### Consumer Advocacy Support

To learn more about consumer protection and advocacy services, please visit the National Association of Consumer Advocates (202) 452-1989 at <http://www.consumeradvocates.org/for-consumers>, the Illinois Attorney General Consumer Protection Division (800) 386-5438 at <http://www.illinoisattorneygeneral.gov/consumers/> or the Texas Attorney General Consumer Protection Hotline (800) 621-0508 at <https://www.texasattorneygeneral.gov/consumer-protection>.

### Appeals

If your health plan denies coverage for your medications, or if you disagree with the benefits or coverage of your medications, you may have the right to file an appeal with your health plan.

Contact your health plan for more information.

### Returned Goods Policy

Your State Board of Pharmacy Regulations forbids the resale or reuse of a prescription item that was previously dispensed. As a result, no credit can be issued for any unused or excess products. Scripts Rx's patient care coordinator will arrange a return and reship of medication if your medication or supplies are defective. Returning supplies and equipment is prohibited.

### Supplies

Once supplies have been delivered to your home, Scripts Rx cannot reuse them. Keep the supplies you may be able to use in the home and dispose of the rest. If you have questions about disposal, please call (800) 266-4907. We will be happy to assist you.

### Patient equipment

Please call (800) 266-4907 as soon as your therapy has been discontinued, so we can make arrangements for the return of your equipment. Please note:

- It is helpful for us to know the exact date your therapy was discontinued.
- When returning a pump, make sure you return all of the pump accessories. For example: if your therapy used the Curlin pump, you will need to return not only the pump, but also the AC adapter (which should be placed in the black case), the black carrying case and the pouch.
- All equipment must be returned to Scripts Rx as soon as possible upon completion of therapy.

### Medication Delays

If your medication is delayed, a Scripts Rx patient care coordinator will call or text you to provide assistance and further coordinate any immediate care issues.

### Drug Recalls

Scripts Rx follows the drug recall guidelines created by the FDA, drug manufacturers, drug distributors, and/or state and federal regulatory agencies. Scripts Rx will contact you and your prescriber in the event of an FDA Class I recall. For lesser recalls, Scripts Rx will contact your prescriber or your health plan as well as providing you notice of the recall.

### Suspected Medication Defect

During your patient intake process, a patient care coordinator or pharmacist will provide you with important information

on how your medication should arrive to you. If you have concerns, about the quality, integrity, or the medication appears to have been tampered when you receive it, do not use the product and call Scripts Rx at (800) 266-4907 where a patient care coordinator will appropriately address your concern, provide consultation with a pharmacist, or arrange for the return of the product and the dispensing or delivery of replacement product.

#### **Delays and Order Status**

Information on the status of your order can be obtained by calling one of our customer support specialists during our normal business hours at 1-800-266-4907. During the patient intake process, you will also be offered the opportunity to provide your email where the pharmacy will send your receipt along with tracking information and delivery updates for those patients who are receiving their medication via courier service.

## Patient Safety

### Adverse Drug Reactions

Patients experiencing adverse drug reactions, acute medical symptoms or other problems should contact their primary care provider (PCP), local emergency room or 911.

### How to Throw Away Home-Generated Biomedical Waste\*

Home-generated biomedical waste is any type of syringe, lancet or needle ("sharps") used in the home to either inject medication or draw blood. Special care must be taken with the disposal of these items to protect you and others from injury, and to keep the environment clean and safe. If your therapy involves the use of needles, an appropriately sized sharps container will be provided. Please follow these simple rules to ensure your safety during your therapy.

### Sharps

After using your injectable medication, place all needles, syringes, lancets and other sharp objects into a sharps container. If a sharps container is not available, a hard plastic or metal container with a screw-on top or other tightly securable lid (for example, an empty hard can or liquid detergent container) could be used. Before discarding, reinforce the top with heavy-duty tape. Do not use clear plastic or glass containers. Containers should be no more than  $\frac{3}{4}$  full.

### Disposal

Check with your local waste collection service to verify the disposal procedures for sharps containers in your area. You can ask your prescriber's office about the possibility of disposing of items in the prescriber's office during your next office visit. You can also visit the Centers for Disease Control and Prevention (CDC) Safe Community Needle Disposal website at <http://www.cdc.gov/needledisposal/>

### **Needle-Stick Safety**

- Never replace the cap on needles.
- Throw away used needles immediately after use in a sharps disposal container.
- Plan for the safe handling and disposal of needles before using them.
- Report all needle stick or sharps-related injuries promptly to your physician.

If your therapy does not involve the use of needles or sharp items, you do not need a sharps container. You should place all used supplies (e.g., syringes or tubing) in a bag you can't see through. Put this bag inside a second bag and put this in your garbage with your other trash.

### Emergency Preparedness

Each year nearly 21 million family members suffer injuries in the home. We want you and your family to live in a safe environment. We have provided some suggestions that could help you prevent an injury within your home. Check every room in your house and make your home safer.

**Falling:** (This is the way people are most often injured in their homes.)

1. Keep the floor clean. Promptly clean up spills.
2. If you use throw rugs, place them over a rug liner or choose rugs with non-skid backs to reduce your chance of falling.
3. Use a non-slip mat or install adhesive strips in your tub or shower.
4. Tuck away telephone, computer and electrical cords out of walkways.
5. All stairs and steps need handrails. If you have stairs in your home and have children, use baby gates at the top and bottom of the stairs.
6. Have all walkways well lit and use night lights as needed.
7. Have a flashlight that works.

**Poisoning:**

1. Keep all hazardous materials and liquids out of the reach of children.
2. Keep medications out of the reach of children.
3. Know your local poison control number or dial 1-800-222-1222

**Fire and Burn Prevention:**

1. Have smoke detectors in the home, and replace batteries at least once per year.
2. Test each smoke detector once a month.
3. Have a fire plan and be sure all family members know what to do if there's a fire.
4. Place covers over electrical outlets.
5. Check to make sure your water heater is set no higher than 120° F.
6. Keep children away from the stove and never leave the stove unattended while cooking.
7. Keep matches and lighters out of the reach of children.

**Fire:**

1. Rescue anyone from immediate danger:
  - If bedridden, tie a knot in the head and foot of the sheet.
  - Using the sheet, pull the person to safety. If two people are available, make a chair from the rescuers' arms and carry the patient to safety.
2. If safe, alert the fire department. Otherwise evacuate area.
3. Turn off oxygen (if applicable), and try to contain the fire by closing off any access, such as doors.
4. Attempt to extinguish the fire only if it is in a small localized area, otherwise evacuate the building and notify the fire department when you are safe.

**Natural Disasters** (earthquake, hurricane and tornado):

1. In disaster-prone areas, store food and extra bottled water. Have a transistor radio, flashlights and extra batteries. Report any special needs for a backup generator to electric and gas companies.
2. Check for injuries.
3. Check your home for any gas or water leaks and turn off appropriate valves.
4. Stay away from windows or broken glass. Wear shoes at all times.
5. Evacuate area if necessary.
6. If evacuation is necessary, go to the nearest shelter and notify the organizers of any special needs you have.

**Power Outage:**

1. Notify your gas and electric companies if there is a loss of power. Report any special needs for a backup generator to the electric and gas companies.
2. Have a transistor radio, flashlights, batteries and/or candles available. (If on oxygen, turn it off before lighting candles)

**Flood:**

1. In flood-prone areas, store extra food and extra bottled water. Have a transistor radio, flashlights and batteries available. Get a pipe wrench to shut off valves for gas and water. Report any special needs for a backup generator to the electric and gas companies.
2. Unplug your infusion pump unless the IV pole is touching water.
3. Evacuate the area.
4. Contact the local law enforcement, civil defense and/or emergency preparedness.

## Frequently Asked Questions

### What is a specialty pharmacy?

A specialty pharmacy provides injectable, oral and infused medications. These complex and costly medications usually require special storage and handling and may not be readily available at your local pharmacy. Sometimes, these medications have side effects that require monitoring by a trained pharmacist or nurse. Scripts Rx focuses on providing these medications while offering excellent customer service and clinical support to you and your caregivers.

### What is the Patient Management Program?

The Patient Management Program is included at no cost to you and you are automatically enrolled as a patient of Scripts Rx. **You may opt out at any time.** Pharmacists will work with you on any problems, concerns or questions you may have regarding your medication therapy. Issues discussed include disease overview, medication, dose, dose frequency, interactions, side effects, physical assessments and coordination of care with your physician when appropriate, etc.

The potential health benefits of this program include managing side effects, improved overall health, increased disease and medication education and awareness, increased medication compliance and when coordination of care with your physician is necessary, your pharmacist will have all the information needed to help make informed decisions regarding what is best for you as the patient.

The potential limitations of this program are dependent on you as the patient. You must be willing to follow the directions of your physician and pharmacist, be compliant with taking your medication and willing to discuss the details of your disease, medical history and current practices with your pharmacist so he can have a full understanding of the situation. Please let your physician know you are a patient of Scripts Rx and are enrolled in their Patient Management Program. A good relationship between your physician and your pharmacist will benefit everyone involved in your care.

### How do I opt out of the Patient Management Program?

You may opt out of the patient management program at any time by calling our pharmacy and requesting to speak to a pharmacist. The pharmacist will confirm your request to end your enrollment and update your patient profile with your preference.

### How important is it to take all of my medication?

Following your prescriber's instructions for both the amount of the medication you should take (for example, 20ml once a day) and the length of time you should take it (for example, every day for 3 months) is the best thing you can do to ensure a successful course of treatment. We understand that some medications may have unpleasant side effects or may be difficult to administer. Therefore, our pharmacists and nurses are available to offer practical advice about dealing with these issues or to contact your prescriber about the medical management of these side effects.

### How do I order a refill?

A Scripts Rx representative will call and/or text you to schedule your delivery at least a week before your next refill. During this outreach, he or she will confirm that you are still taking the medication, that your prescriber has not changed the dose, and that you are not having any unmanageable side effects.

### How long does it take to receive my medication?

Medications are usually shipped with expedited delivery within 24 to 48 hours after we receive your complete prescription. Scripts Rx will provide any additional supplies you need for administering your medication, such as needles, syringes and alcohol swabs.

### What if I have questions about my medications?

At Scripts Rx, we have a team of pharmacists to answer your questions through the toll-free number (800) 266-4907. A licensed pharmacist is available 24 hours a day, 7 days week. He or she can help you if you have an urgent need relating to your medication. Please leave your contact information with our after-hours answering service, and the pharmacist on-call will promptly return your call.
